

Enjoy higher revenues from your work comp payers and faster access to cash. Cookeville Regional Medical Center does.

“Workers’ compensation accounts take an extraordinary amount of time and require a unique skill set to manage. It simply made sense to me to reallocate my resources and let EnableComp focus on managing this complex revenue class for us. It has proven to be a great decision for us.”

CHARLOTTE CUMMINS
DIRECTOR OF PFS, CRMC

Cookeville Regional Medical Center is a 247 bed acute care facility located in Cookeville, TN, 80 miles from the nearest trauma center. The hospital’s GPR is \$430million. EnableComp provides CompDirect services to this client.

Like most hospitals these days, Cookeville Regional has looked to their revenue cycle leadership to reduce costs and improve collections. Revenue cycle excellence requires extraordinary performance across all financial classes. They know that, even though it is only 1% of their hospitals’ total revenue, work comp is a complex reimbursement class that requires the attention of experts. **Knowing and collecting what our clients are entitled to from workers’ compensation payers, we get it.**

Expertise

Workers’ compensation is *highly complex* and extremely regulated, with vague and uncertain rules. Our team speaks that language...and we have done so for the more than **\$1 Billion** in work comp claims we’ve handled for our customers.

Technology

Our proprietary technology considers accurate fee schedules and jurisdictional, clinical, and contractual influences to determine precisely what to expect in work comp. We provide the data necessary to adjust a client’s aged trial balance within 72 hrs.

Value

Our intensive audit of closed work comp accounts combined with our day-one CompDirect program assures Cookeville Regional that they are getting every penny they deserve for the services they provide injured workers.
